FEBRUARY 2022

VOL. 42 NO. 2

PRESIDENT'S PAGE

Todd Hornyak

I want to begin this article by thanking all letter carriers that have shown up to work and are delivering to our customers during this challenging time.

Carriers that are not on the overtime desired list have been required to work their scheduled days off for several months now. I have never seen the postal service in such dire conditions. All you need to do is turn on the television and hear the complaints from customers that do not receive their mail every day. In the installation of Columbus there are several routes that have not been carried daily for the last few months. The increase in COVID 19 cases and the fact that we are over one hundred City Carrier Assistants (CCAs) short are the major cause. We have informed the National of the problems we are having, and they are in negotiations with Postal Service headquarters on the staffing issues but there have been no solutions yet.

Because of the staffing issues attendance is once again a major issue that management is focusing on. Please make every effort to be regular in attendance. Carriers that

have serious health conditions should seek Family and Medical Leave Act (FMLA). FMLA is a federal law that entitles eligible employees to time off to care for a new child, to care for a seriously ill family member and for an employee's serious medical problems. Letter carriers apply for sick leave, either in advance or after returning to work, by submitting a PS Form 3971. When an employee has an unexpected need for sick leave, he or she must notify the appropriate postal authorities as soon as possible of the illness or injury and the expected duration of the absence. Upon returning to work, the employee must submit a PS Form 3971 (Request for or Notification of Absence). The Carrier should check the type of leave they are requesting and have management sign the 3971. As always, keep a copy of the signed 3971 for your records to insure you are paid correctly.

In 2021 there were over 1,900 grievances that were appealed to the Formal Step A of the grievance procedure for Branch 78. I would like to thank all the Union Stewards for their hard work representing the membership of this branch. There were over 1,000 grievances filed regarding Article 8 of the

National Agreement and forced overtime. There were over 160 disciplinary grievances filed that were either a Letter of Warning, 7 Day Suspension, 14 Day Suspension or Removal. I once again want to emphasize that any time you are issued any discipline it is a serious matter. All Carriers should sign and date any discipline they are issued. Signing for discipline is not an admission that you are guilty of the charges outlined in the letter of charges. It shows that you received the discipline and the date that it was received.

If you are issued discipline, immediately ask to speak with your Union Steward. If your steward is not there contact the Union Hall. I would like to remind all letter carriers of their rights as outlined in the National Agreement. Any employee who feels aggrieved must discuss the grievance with the employee's immediate supervisor within fourteen (14) days of the date on which the employee or the Union first learned or may reasonably have been expected to have learned of its cause. This constitutes the Informal Step A filing date. The date you sign for your discipline starts the 14-day clock.

continued on page 5

FROM THE VICE PRESIDENT

Mark Beach

A cost-of-living adjustment (COLA) is an increase in income that keeps up with the cost of living (i.e., inflation & the rise in cost of goods and services). I always get questions on this subject and how carriers will receive this benefit. A COLA is applied as an hourly increase in your pay wages based off the rise in the consumer price index. Carriers always ask when they are getting their lump sum check for the COLA. A COLA is paid as an increase in the carrier's hourly wage that reflects the current cost of living change over the agreed period. The current COLA period ran through January 31, 2022 and will be announced mid-February. Again, carriers will see the COLA expressed in a lump sum but must divide this by the pay periods and weekly hours to get the hourly increase that they will see on their checks. The NALC will then put out a new carrier pay chart reflecting the hourly increase. As inflation continues to increase, I am so thankful that the NALC has fought hard to maintain COLA's as part of our contract.

With conversions taking place almost monthly in the Columbus Installation and surrounding associate offices there seems to be confusion about what a hold down is (opt) and what is a higher-level assignment and the rights of City carrier assistance among our newer members. A City Carrier Assistant (CCA) can place a hold-down (opt) on a regular route (Q-1) position that is vacant for 5

days or more in accordance with article 41 of the National Agreement. Management in accordance with the contract must honor the hold down for the duration. A CCA can only voluntarily break a hold down upon conversion to go to their selected or assigned route. Again, this is at the carrier's discretion and the newly converted CCA can remain on the hold-down (opt) for its duration. However, regular carriers and CCAs cannot hold-down (Opt.) higher level assignments (T-6 groups). Regular carriers can request the higher-level assignment in accordance with article 25 of the National Agreement. CCAs are not eligible to request a higher-level assignment under article 25 of the National Agreement. However, CCAs do have rights under article 7 to have their classification changed if working a T-6 group. T-6 group whether it is requested by the CCA or if management chooses to, they must change the CCAs PS form 50 from CCO1 and reassign them as a CCA carrier technician position CCO2. This change would also reflect an hourly pay increase. Management can place a CCA back to grade one at any time upon their removal from the T-6 duties. If a CCA is converted to regular while they are working as a CCO2 they must go to their newly assigned route, unlike a hold down.

Management for the Columbus Installation has failed to agree to a conversion class for newly converted regulars. The Branch has filed a class action grievance this matter. Newly converted CCAs have 60 days to sign up for benefits after their conversion.

Recently Region 11 business agents Mark Camilli's office completed a three-day steward's school at the union hall. Due to the Columbus Installations staffing issues and after discussions with the Mark's office, Branch 78 made the tough decision to scale back the number of stewards going to this class. We will work in close conjunction with the Mark's office to reschedule the rest of the identified stewards that were selected for this class. During the week Mr. Camilli visited three offices along with District Manager, Jean Lovejoy and President, Todd Hornyak. The offices that were selected were identified as having major staffing issues, non-delivered mail and retention failures. The union is again emphasizing that the MCSO's and Postmasters need to adhere to the on-boarding process and stop violating the contract by removing CCAs from hold downs (OPTs). The way management has decided to operate regarding CCAs is clearly not working. Something must change and hopefully with the district manager's visit to the Columbus Installation this will help get the Postmaster's management team on the right track. With Jennifer Goldstein back as the Postmaster of the Columbus Installation we hold out hope she will offer stability and positivity as she did the last time she was here.

Mark Beach
Vice President

MILLERS MUSINGS

Yana Miller-Farney for a long visit.

Welcome to the Winter Wonderland, none of that wham, bam, thank you ma'am. This blast has been settling in

Which makes me shiver for those of you on the street in these temps. Please dress in multiple layers, ice walkers, warm hats and good protection for your hands. I repeat my farmer friend's advice to NOT use HOT water for hand washing in colder months, it does make them crack and split more. Switch to tepid or warm water. Those skin cracks and splits are so painful and hard to heal when you're outdoors more than inside. Black ice is not your friend driving or walking. Please take care.

There has been an increase in political ads on tv, email and online. This is a big year considering the mid terms this fall. Do your homework on all the candidates. The ones you see advertised the most are not necessarily your best options. Investigate, study and learn who is really a friend to letter carriers and working people.

Part Three of the attempt to retire. My appointment with the Retirement Counselor did happen January 7, YEA! I should have waited to complete the forms till then as there were some I could have skipped and didn't need to have notarized. Great that I was able to have those done at the bank without being charged. The counselor was knowledgeable, the big question is whether I got it right when I did the new copies. Tried to write notes as she talked but should have written in red in on the completed forms. Shipped

them to Shared Services certified with return receipt, which has been returned. No word yet on the actual forms. Once they are approved they will go to OPM. This is nerve wracking, to wait for confirmation, minimal time before the retirement date. More to come next issue.

WHY YOU SHOULD WEAR A MASK! COVID has been a part of our lives two years. We have all been touched by the preventable deaths of family and friends. No one wants the call that they have possibly been exposed. This was my second time since the vaccines have been available, which is why I said preventable. I was not a "I can't wait to get my shots person" until I spoke with my Primary Care Physician. Mostly concerned about the quick development of the vaccines. He gave me the history that went back several years before the current pandemic and the research that had been going on for another SARS outbreak that didn't come to fruition. We discussed my health history and that helped me decide to get vaccinated. I had been masking since the first announcements anyway. I remembered my years living in Japan and seeing people in masks frequently. My inquiries told me it is out of respect for others health. Mind you that was fifty years ago. RESPECT for others, what concept. I have friends and family who are battling cancer, have had transplants and are more senior than I. My one friend has been fighting cancer and had a transplant, she has NO IMMUNE system. We have not been able to visit for two years out of respect for her health. Another group of friends and coworkers have under lying health conditions

that could be fatal if they contract COVID. Several others have senior parents that we want to protect. Still others have children and grandchildren too young to be vaccinated. Like I said **WEAR A MASK OUT OF RESPECT FOR OTHERS.** It is a simple ask, please do the right thing and cover your NOSE and MOUTH with a mask. I can't quote this week's stats but a couple weeks back 84% of hospitalized people were unvaccinated, that is disrespectful to the staff, their families and EMTs that have to deal with them. It's SELFISH because people who need medical care are frightened to enter hospitals and Emergency Departments. Reconsider your decisions, please.

The next Region 11 Virtual Retirement Seminar will be Sunday, March 6 from 1:00 p.m. – 3:00 p.m. All participants will need to pre-register and have a valid email address to receive the WebEx link. Contact the union hall for more information or email kennedy@

nalc.org. Deadline is Friday March 4, 2022.

I would like to congratulate Reggie Falls from Livingston Station, John Au from Eastland Station, Howard Parks from Oakland Park Station and Mark Morrison from Gahanna Station on their recent

retirement. I wish them the best on their retirement.

***Fraternally
Todd Hornyak***

February is Black History Month

Dr Alexa Canady

Dr. Alexa Canady, in 1981, was the first African American woman in the United States to become a neurosurgeon. Specializing in pediatric neurosurgery, served as Chief of Neurosurgery at the Children's Hospital in Michigan from 1987 to 2001.

**Walter Lincoln Hawkins
March 21, 1911 – August 20, 1992**

Polymer Chemists, Scientist and Inventor

Known for: Walter Hawkins is best known for inventing a plastic coating for telephone wires that made universal service possible. He is a recipient of the National Medal of Technology and an inductee of the National Inventors Hall of Fame.

**Gladys West 1930 -
Field: Mathematician**

Born and raised in Virginia, Gladys West leveraged her mathematical and programming expertise to invent an accurate model of the Earth which was used as the foundation for the creation of the Global Positioning System (GPS). She was the second black woman ever to be employed by the Naval Surface Warfare Center Dahlgren Division and was inducted into the United States Air Force Hall of Fame—one of the highest honors awarded by the Air Force.

**Percy Julian
1899–1975**

Civil Rights Activist, Medical Professional, Scientist, Chemist, Academic

Known for: Percy Julian was a research chemist and pioneer in the chemical synthesis of medicinal drug from plants, such as cortisone, steroids and birth control pills. He was inducted into the National Academy of the Sciences, National Inventors Hall of Fame and the American Chemical Society for his lasting work.

It is always interesting to research contributions by African Americans that most of us had not known. Even more exciting is to share that knowledge with others, especially things we use daily. Recognize and appreciate those items that improve lives and not just during Black History Month. Celebrate the spirit and ingenuity of them.

JANUARY BRANCH MEETING MINUTES

Meeting called to order by President Hornyak at 6:32; Pledge by Gary Porter; Invocation by Valerie Davis. Deviated from the regular order of business for NBA Mark Camilli to join the meeting.

He thanked all carriers for their work through the holidays. Postal Reform is our priority, recent ten inches of snow in D.C. has slowed things. Reiterated USPS part of Build Back Better legislation. Covered the Vaccination issue before the USPS, any business with 100 plus employees is under discussion in first the 5th Circuit and now the Supreme Court. No final word on the Juneteenth holiday but Career Only, CCAs may be in the next contract. He has discussed staffing with Area Mgr Henry. Trying several new pilots to retain new hires. Disaster Relief has no administrative fees, monies go directly to employees in need, please consider them for contributions. Talked about the COLA amounts for 2022.

Resumed with the reading of minutes by Yana. One correction from Mike Brim; Repeal of Prepaid Retiree Health Benefits not Six Day Delivery. Noted. Trevor still carrying. Todd read Communications Thanks from Charity Newsies for \$250 donation to purchase school clothing for K -12; FCCS Holiday Wish Program for \$2100 in gift cards; US VA from Tracy Washington to Gary Porter for \$2000 in gift cards. Mark Beach read Bills List. Todd read 20 applications for membership, welcome them and assist them in learning the job. Mark Beach Steward School will be January 25-27/22. We have sixteen from Br 78 to attend, they have been instructed to submit 3971. Val Davis. Facing the challenges of COVID; looking for newly retired to join them and ideas for activities. COVID Memos extended through 02/11/22. Gary Porter, Omicron variant, must be vigilant wearing masks and maintaining social distance. Jeremy said there have been problems getting masks and sanitizer. Will check because there had been stash. Mark Beach read the Treasurer's Report, since Jason is still working. Jeremy mentioned OSU Hospital getting assistance from ONG, they will man the drive through testing site, need order from PCP on MyChart. Shep had asked if they were going to help USPS. Mark Beach made a motion seconded by Jacki to transfer \$200,000 to Wright-Patt Credit Union, due to FDIC limits. **PASSED**

Mark Beach made a motion to spend \$921 to send President to Spring COP, 04/24-26/22 in Atlantic City, seconded by Don Shepherd. **PASSED**

There were questions about the Sunday parcel hub at West Worthington and carriers assigned from other stations not showing up.

Region 11 training has been postponed from March 6-7/22 in Cincinnati Westin Hotel rescheduled for April 30-May 2/22. Food Drive is tentatively scheduled for May 14, last two have been cancelled; Branch has registered with the National; planning a Virtual Donor Drive. Washington DC Legislative Conference is April 27-28, 22. Redistricting has not been finalized, Ohio losing one district. May need new Congressional Liaisons, if you're interested contact Todd.

National Convention in Chicago 08/08 to 08/12/22; Feb 1 the Branch will receive delegate eligibility list along with housing info. 23 delegates qualified names were read, submit 3971 for choice vacation. The Board will select our top three hotel choices to return to Housing Committee.

John Umphlett, Columbus OIC eff 11/27/21 returned 12/14/21, a labor mgmt mtg has been requested; Angela Lazenby Brooks appointed MCSO. Informed Form 50 Postmaster Jennifer Goldstein returning 01/18/22. FTR Conversions: Columbus - 4 on 10/23/21, 11 on 11/20/21, 9 on 01/01/22, 5 on 01/15/22; on 01/01/22 1 each in Hilliard, London and Pickerington.

COVID cases have spiked in two months; carriers that test positive for COVID19 should complete a COVID19 CA-1 through OWCP. Read American Rescue Plan Act, makes it easier to be covered under FECA. If you carried out duties within 21 days of testing positive, file on eComp. 16,000 with COVID only 1,000 have filed a CA-1. Don't rely on home test only.

Staffing is the worst ever, 100 CCAs short in Columbus; OP had 46 carriers for 72 routes; short staffed in Hilliard, Pickerington and Grove City. Our Business Agent is requesting all delayed mail be reported.

Stewards are asked to report all routes that were not delivered or portions of routes. FTR have been mandated to carry mail on Sundays. OP has had up to 20 routes not being delivered.

Steve Bryant made a motion to allow those working late and with COVID to not be excluded from meeting attendance counted toward being delegates. It would need a By-Law change, so withdrawn.

An Arbitration Award for South Columbus on OT Equitability, with Jeremy Hirschfelt as Advocate. ODL must be within 10% of highest person on the ODL list. Nine cases scheduled for regional arbitration in January, February and March for Non-Compliance and 12/60.

We are unsure about whether the Branch Picnic, Golf Outing and Retiree Dinner will be held this year.

Planning on twenty-two new CCAs, soon after that another 28.

GOOD of the ASSOCIATION

Had he been present Christian Feliz would have won \$110.

Our February Meeting is in person and via ZOOM. Adjourned at 7:55

Submitted by Yana Miller-Farney

VIRTUAL RETIREMENT SEMINAR

The next Region 11 Virtual Retirement Seminar will be Sunday, March 6 from 1:00 p.m. – 3:00 p.m. All participants will need to pre-register and have a valid email address to receive the WebEx link. Please send names, phone numbers and email addresses to RAA Dave Kennedy via email to kennedy@nalc.org by Friday March 4, 2022. A link will be sent out after that with instructions on how to join the seminar.

Attention Members
